SHADING SYSTEMS

WINTER GARDEN

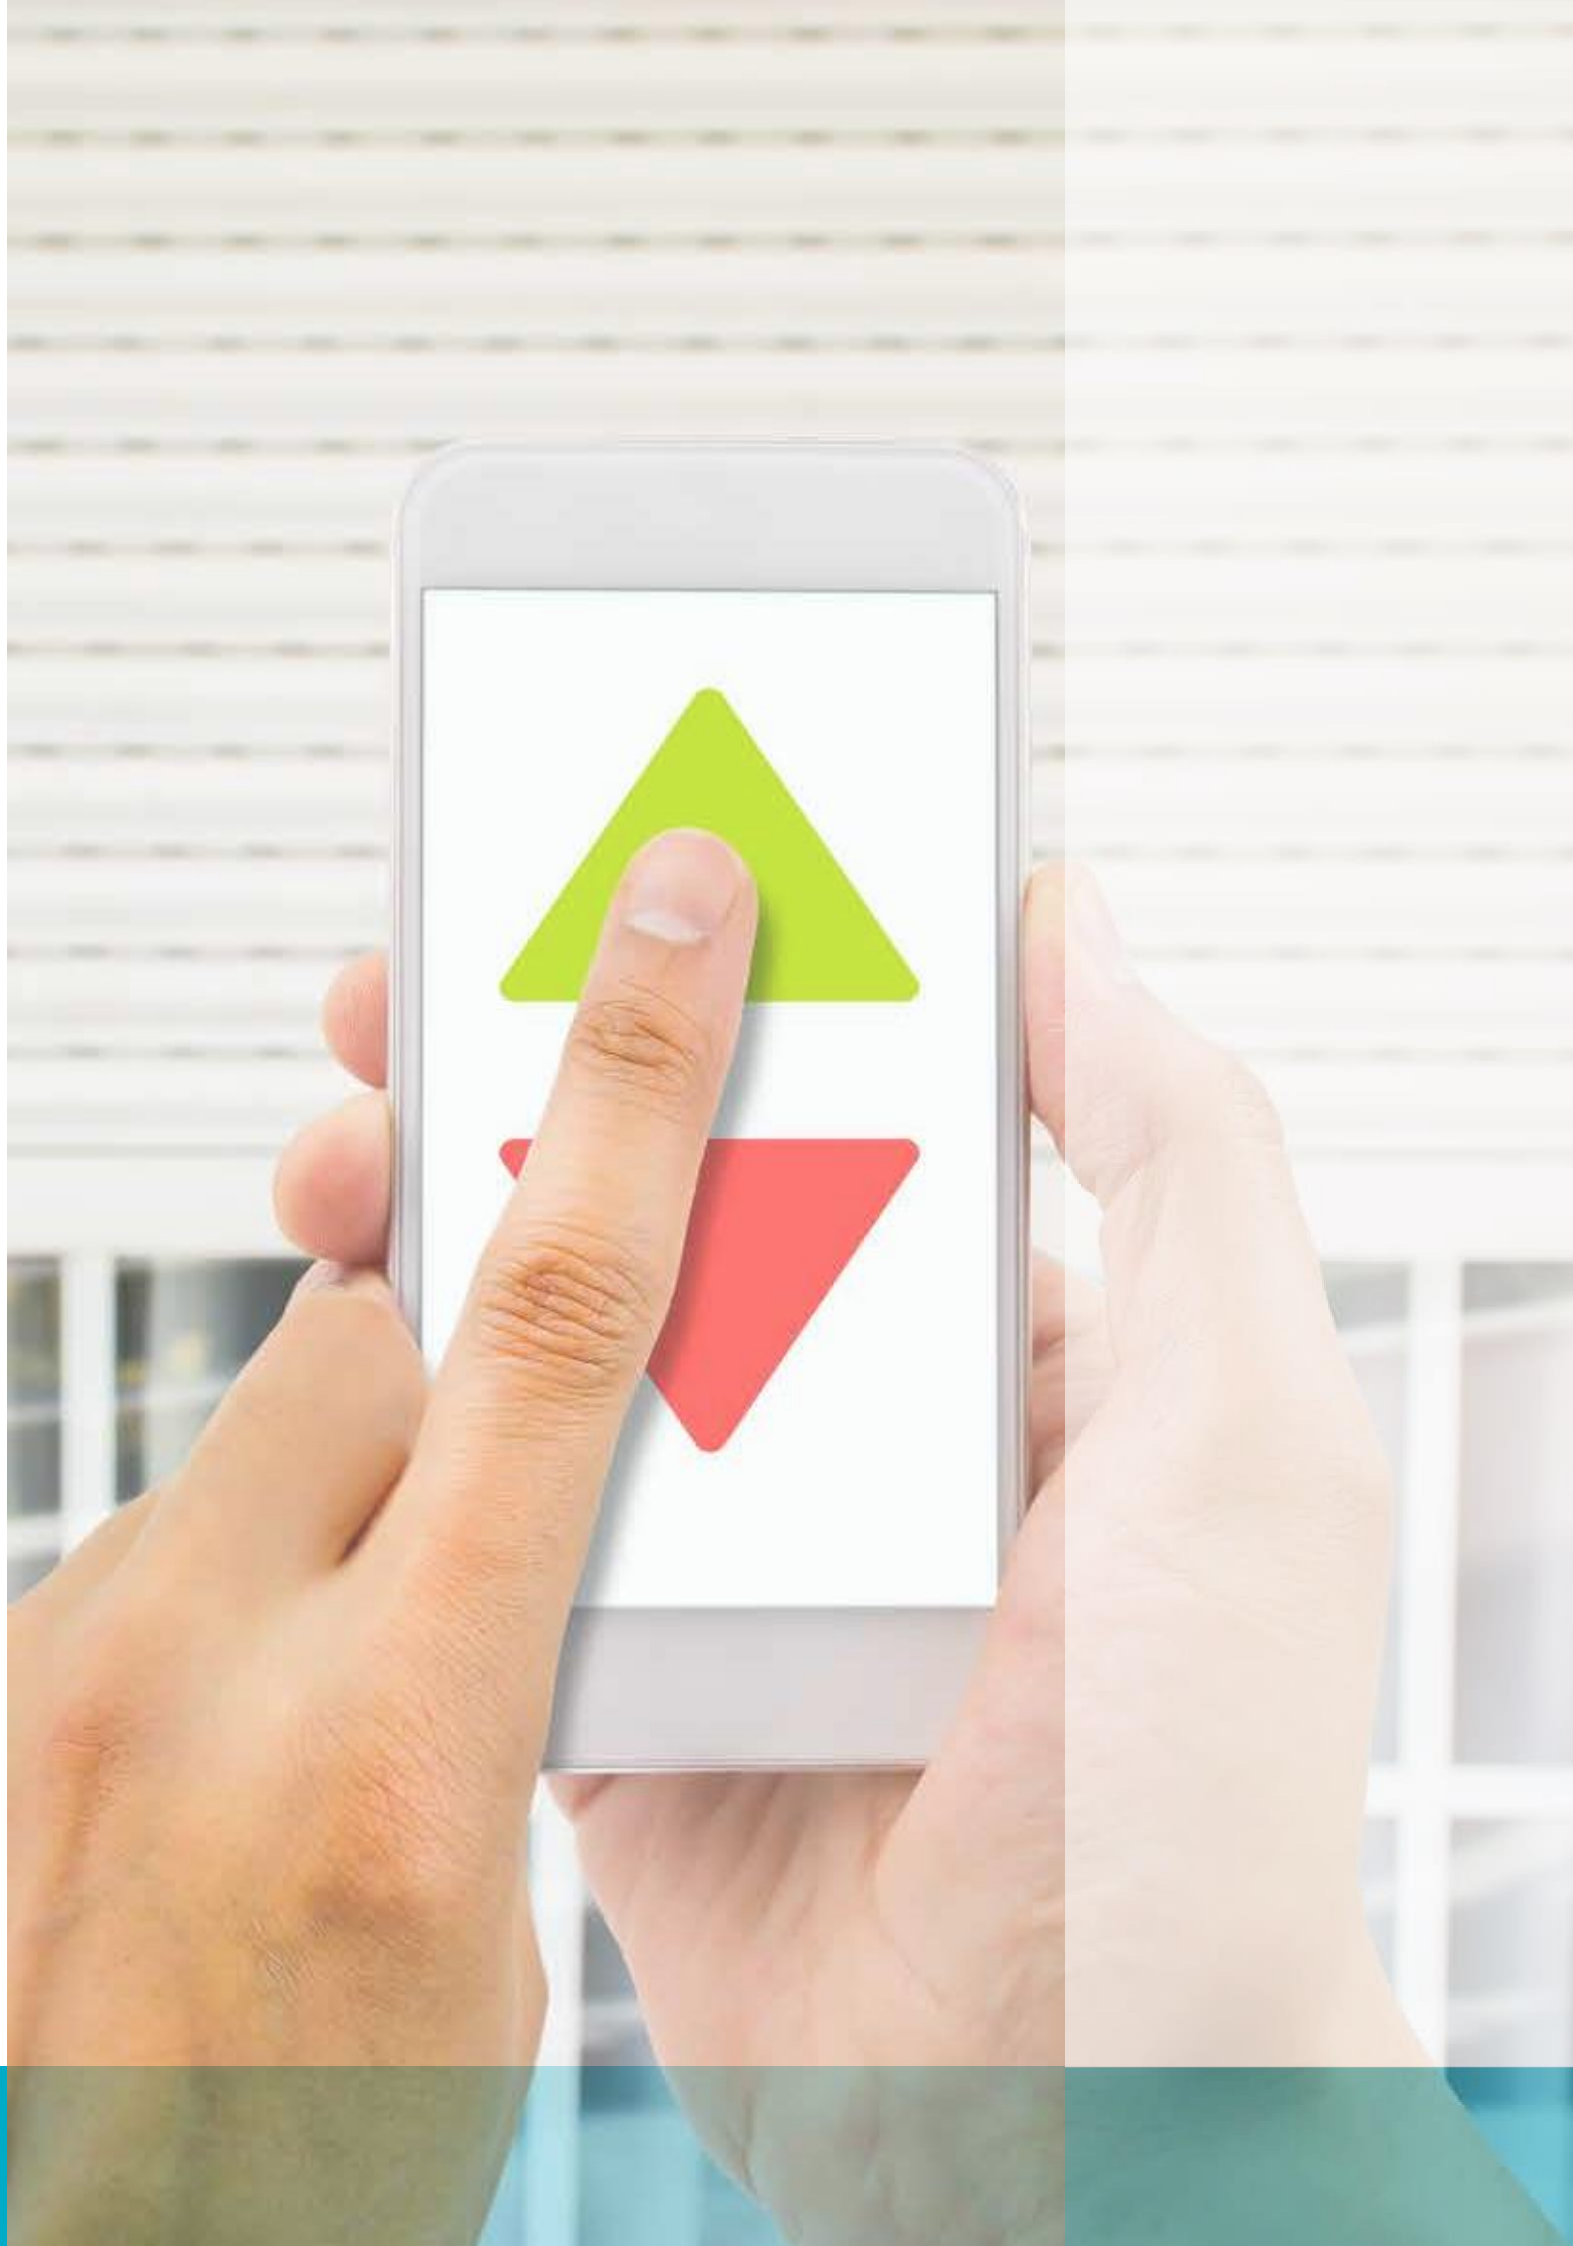

Railing awnings can be used in outer spaces of cafes and restaurants, in gardens and terraces of residences in all seasons. Railing awning systems protect from the summer heat and the sun's harmful rays, the winter rain and the impact of adverse weather conditions due to its three-layer fabric. Rails and moving parts do not make sound and are not required maintenance. Railing awning system which is controlled by remote control is very practical due to its retractable feature.

SHUTTER

Alusel Roller Shutters to feel secure...
Nowadays security of our work places is one of the most important Minos. We need to take precautions to protect our work places against burg., and adverse weather conditions. Most efficient precaution is roller shutter system. Alusel Roller Shutters provide modern security solutions harmonize with the architecture of your building.

CONTAINER MODELS

World's modular structure choice
Our container models have advantages of fast production, easy to transport, set-up in a short time and with economic price and are produced with completely pluggable screw system with technological production.

Our products are manufactured by 50 mm wall thickness and 125mm roof sandwich that give high insulation rate with dimensions of 300x700 cm 230x600 and have up to 20 different types. Our 300x700 cm model are produced fully demounted system which first in the world, are easy to install and transport for international shipping standards.

ASFER YAPI Restorasyon Sanayi ve Ticaret A.S. (ASFER Construction Restoration Industry and Trade Inc.) is a private owned incorporated company.

ASFER is an engineering, construction and contracting company and re-established as incorporated company in Turkey in 2004.

Roots of ASFER is coming from family construction business since 1990 which is founded by father of owner of ASFER.

With 30 years experience we have deep knowledge about project design, construction and contracting for infrastructure and superstructure construction works.

Since incorporation, with experienced and expanding work team, ASFER has completed number of prestigious projects in Turkey as infrastructure and superstructure projects.

We are based in Istanbul in Turkey. We are flexible and we have agile approach for quick projects.

In addition to constructing works, according to the period's conditions and preferences, to exploit and create new and different opportunities for tomorrow, ASFER started to involve market development by introducing its services into new geographic areas.

GENERAL SUMMARY

INFRASTRUCTURE WORKS

It is one of the specialties that ASFER YAPI started 30 years ago and carried to today, from sewage to road construction, from laying all kinds of open and closed diarrhea lines to natural gas and clean and waste water pipelines.

MASS HOUSING, ART CULTURE AND RELIGIOUS BUILDINGS

ASFER CONSTRUCTION can manage the Mass Housing projects from Design to constructing.

The construction of Shopping Centers, shops, warehouses, art houses, Religious Founding's like Mosques and culture houses like congress centers, theaters, all of them are ASFER Construction's interest and expert area.

ASFER CONSTRUCTION realizes turnkey construction project commitment including design, infrastructure, superstructure and fine works.

Agility, Flexibility, Prosperity, Just in Time, Affordability at Budgets, Solution Oriented, Partnership with customer, Long Term Commitment, Transparency with trustworthy.

We transform our dreams into reality with the 3D formula;

3D

Dream

Desire

Do

Our dream is our Vision

Our Desire is our Motivation
